

FortiX - Golden Demo Execution Report

```
=====
FORTIX GOLDEN DEMO EXECUTION SCRIPT
=====
[1] Logging in as admin@fortix.dev...
    ' Login successful, got JWT.
[2] Fetching projects...
    ' Selected project: Demo Project (proj-1)
[3] Registering target route...
    ' Registered route: /api/v1/payment -> http://fortix-demo-api/api/payment (ID:
19ae6baf-146d-49fd-af17-691f5a76bc06)
[4] Creating API Key...
    ' Created API Key: b0b159dc***
[5] Configuring Rate Limit Policy...
    ' Rate limit configured.
[6] Testing valid request through Gateway...
    ' Status: 200 (176ms) | Response: {"status":"ok","message":"Payment processed
successfully"}
[7] Testing invalid API key...
    ' Status: 401 | Response: {"error":"Invalid or Revoked API Key"}
[8] Testing suspicious request (Path Traversal)...
    ' Status: 403 | Response: {"error":"Forbidden: Suspicious activity detected"}
[9] Triggering Rate Limit Burst (25 requests, limit is 20)...
    ' Received 5 Rate Limit (429) responses.
[10] Launching Latency Experiment (800ms)...
    ' Experiment launched (ID: 37626a92-7c07-4014-8ec6-b9c2ecec5b65). Status: QUEUED
[11] Waiting for Experiment execution (12 seconds)...
    ' Experiment completed. Final status: COMPLETED
[12] Fetching Policy Verifications...
    ' Verification found!
      - Expected: {"maxLatencyMs":800,"allowedErrors":0}
      - Observed:
{"error":0,"total":10,"accepted":10,"rejected":0,"avgLatencyMs":951.3}
      - Result: PASS
[13] Fetching Security & Resilience Scores...
    ' Security Score: 90/100
    ' Resilience Score: 78/100
=====
GOLDEN DEMO COMPLETED SUCCESSFULLY
[14] Generating Evidence PDF...
